Re: Selkirk Model Direct-Temp™ direct venting system

We are pleased to announce that the Esteem and Estate direct vent fireplaces and the Classic and Super 27 gas stoves have been approved for use with Selkirk Model Direct-Temp™ direct venting system.

When using Selkirk Direct-Temp™ as an alternative venting system, follow the same system layout, clearance to combustibles and other guidelines as currently included in our main installation instructions for the above referenced appliances. The Selkirk Direct-Temp™ installation instructions are included with all Selkirk Direct-Temp™ terminations and provide clarification on how certain parts / pieces are assembled, but do not give specifics on system layout options. Follow both sets of instructions.

Attached is a list of the approved Selkirk Direct-Temp™ system components.

If any questions arise with respect to correlating parts or issues associated with the Selkirk Direct-Temp™ system, please contact Selkirk Technical Support at 800-848-2149, ext. 203 or our Customer Service Department at 1-888-223-0088.

Yours truly,
