Selkirk® Chimney System (SCS)
The rugged all-fuel chimney designed for maximum safety and performance!

We Stand Behind Our Products.
Backing our commitment to quality, Selkirk All-Fuel Chimney Systems carry the “Smart Choice” Limited Lifetime Warranty. All system components (not just the insulated lengths) are warranted against defects in material and workmanship for the life of the product.

An impeccable safety record, along with unsurpassed durability, design and materials, all give us the confidence to offer a warranty this comprehensive and unmatched by anyone else in the industry.

For over 85 years we have been the industry’s chimney innovator, using the highest in design standards to develop the safest products.

Safety
Our All-Fuel Chimney is listed to Underwriters Laboratories Safety Standard for Factory-Built Chimneys (UL-103).

Ultra-Temp® – All-Stainless Steel
Galva-Temp® – Galvanized Exterior

5”-8” Type HT All-Fuel Chimney listed to UL103HT

304 Stainless Steel inner liner

Choice of Stainless Steel or Galvanized Steel outer casing

1” Solid Pack Insulation
Our proprietary Solid Pack Insulation helps maintain higher flue gas temperatures for superior drafting performance and lower outside temperatures for safety. Independent testing by Omni Labs shows Ultra-Temp Chimney is the coolest under the hottest conditions.*

Twist-Lock Coupler w/Locking Band included at no extra charge

Hard Tooling supports and accessories for the perfect fit every time

“Smart Choice” Lifetime Warranty

Professional installation qualifies for extended coverage - see warranty for details.

Get the Selkirk Advantage...
The tradition continues… Selkirk is the original innovator of prefabricated Venting systems – and we continue to move forward. Count on Selkirk, the world’s most recognizable name in Chimney & Venting, for the widest range of high-performance products to meet your needs.
